

**The Foundation will also field requests for 'Impact Grants', larger requests up to \$35,000.**

Would the organization's proposal:

- \*Proactively respond to a local need or opportunity?
- \*Have the ability to demonstrate impact to those who are involved and/or affected?
- \*Have the potential to collaborate with other local organizations?
- \*Go above and beyond the traditional programming offered by the organization?
- \*And have a plan for long-term sustainability and ability to be funded in the future by the organization(s)?

*A letter of intent is requested and a full application will be required if accepted. The letter of intent (no more than two pages) should succinctly offer an overview of the project, what need would be met and impact made in the community.*

*Please contact the Foundation directly with any questions.*
